

consistent with the NEPA process, including a 45-day comment period on the Draft EIS. The Draft EIS is anticipated to be available for public review beginning in November 2022. The BLM anticipates releasing a Final EIS in March 2023 and anticipates issuing a Record of Decision in April 2023.

Public Scoping Process

This notice of intent initiates the scoping period and public review of the planning criteria, which will guide the development and analysis of the Draft EIS.

The BLM does not intend to hold any public meetings during the public scoping period. Should the BLM later decide to hold public meetings, the specific date(s) and location(s) of any meeting will be announced at least 15 days in advance through local media, newspapers, and the BLM website at: <https://go.usa.gov/xtk6a>.

Responsible Official

Assistant Director for Resources and Planning.

Nature of Decision To Be Made

Through this process, the BLM will decide whether to approve the herbicide active ingredients identified earlier for use on BLM-managed public lands. This decision will be based on the best available science and current needs for vegetation management. Any authorization to apply any of these active ingredients at a particular site will be made through a separate, site-specific decision and so is not within the scope of the programmatic EIS or potential decision described in this notice.

Interdisciplinary Team and Coordination

The BLM will identify and analyze the proposed action and all reasonable alternatives to address their reasonably foreseeable impacts and, in accordance with 40 CFR 1502.14(e), include in that analysis appropriate mitigation measures not already included in the proposed action or alternatives. Mitigation may include avoidance, minimization, rectification, reduction or elimination over time, or compensation, and may be considered at multiple scales, including the landscape scale.

The BLM will coordinate the NEPA process with other required reviews under the Endangered Species Act (16 U.S.C. 1536) and section 106 of the National Historic Preservation Act (54 U.S.C. 306108) as provided in 36 CFR 800.2(d)(3), including public involvement requirements of Section

106. Information about historic and cultural resources and threatened and endangered species within areas potentially affected by the proposed action or alternatives will assist the BLM in identifying and evaluating impacts to such resources. The BLM will consult with Indian tribes on a government-to-government basis in accordance with Executive Order 13175, BLM MS 1780, and other Departmental policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration.

Federal, State, and local agencies, along with tribes and other stakeholders that may be interested in or affected by the proposed action that the BLM is evaluating, are invited to participate in the scoping process. If eligible, the BLM may request Federal, State, or local agencies to participate in the development of the environmental analysis as cooperating agencies.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Notice of Withdrawal Application and Notice of Public Meetings for the Yuma Proving Ground, Arizona

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of withdrawal application.

SUMMARY: The United States Army (Army) filed an application with the Bureau of Land Management (BLM) requesting a withdrawal and reservation of 21,200 acres of public lands from all forms of appropriation under the public land laws, including location and entry under the United States mining laws, and from leasing under the mineral and

geothermal leasing laws, and 800 acres of Federal surface estate public lands from appropriation under the public land laws for an indefinite period for defense purposes as an addition to the Yuma Proving Ground (YPG) located in La Paz and Yuma Counties, Arizona, subject to valid existing rights. Any decision about the application will be made by the United States Congress. Publication of this notice temporarily segregates the lands for up to 2 years and announces to the public an opportunity to comment and participate in public meetings on the Army's application for withdrawal.

DATES: Comments must be received by July 5, 2022. In addition, the Army and the BLM will host virtual public meetings addressing the requested withdrawal and the associated environmental review process. The dates and instructions for the public meetings are listed in the **SUPPLEMENTARY INFORMATION** section.

ADDRESSES: All comments should be sent to the BLM Arizona State Office, 1 North Central Avenue, Suite 800, Phoenix, AZ 85004; faxed to (602) 417-9452; or sent by email to BLM_AZ-Withdrawal_Comments@blm.gov. The BLM will not consider comments via telephone calls.

Information on the proposed action, including the environmental review process, can be viewed at the YPG's website: <https://ypg-environmental.com/highway-95-land-withdrawal-leis/>.

FOR FURTHER INFORMATION CONTACT: Michael Ouellett, Realty Specialist, BLM Arizona State Office, telephone 602-417-9561, email at mouellett@blm.gov; or you may contact the BLM Arizona State Office at the earlier-listed address. SUPPLEMENTARY INFORMATION: In its application, the Army requests the withdrawal and reservation of the specified public lands for military testing and training purposes for an indefinite term, subject to valid existing rights. In accordance with the Engle Act (43 U.S.C. 155-158), because the public lands requested exceed 5,000 acres, this withdrawal request must be directed to Congress.

The following described public lands are the subject of the Army's withdrawal

application, and are temporarily segregated for a period of up to 2 years from all forms of appropriation under the public land laws, including location and entry under the United States mining laws, and from leasing under the mineral and geothermal leasing laws, subject to valid existing rights:

The areas described aggregate 21,200 acres in La Paz and Yuma Counties.

The following-described Federal surface estate public lands are the subject of the Army's withdrawal application, and are temporarily segregated for up to 2 years from all forms of appropriation under the public land laws subject to valid existing rights;

Gila and Salt River Meridian, Arizona

(Surface Only; Subsurface Excepted—Non-Federal Ownership)

T. 1 N., R. 19 W.,

Sec. 32.

T. 2 N., R. 19 W.,

Sec. 32, S $\frac{1}{2}$ SW $\frac{1}{4}$, and S $\frac{1}{2}$ SE $\frac{1}{4}$.

The areas described aggregate approximately 800 acres in La Paz and Yuma Counties.

The use of a right-of-way, interagency agreement, or cooperative agreement is precluded because of the expected annual usage, daily duration, and impact to the public of the proposed military activities within the requested withdrawal area.

No additional water rights are needed to fulfill the purpose of the requested withdrawal area.

There are no suitable alternative sites within or outside of the YPG boundaries that are compatible with the proposed use since the subject withdrawal area will be an additional surface safety zone adjacent to an existing YPG parachute drop zone. The drop zone was specifically established for its soil attributes, topography, and airspace which are optimal for testing and observation of parachute and air delivery systems. The additional safety zone is needed to enhance the testing of new technology on existing drop zones by preventing public entry into hazardous areas during high-altitude drop operations.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Notice is hereby given for two public meetings in connection with the proposed withdrawal. In response to the coronavirus (COVID-19) pandemic in the United States, and the U.S. Centers for Disease Control and Prevention recommendations for social distancing and avoidance of large public gatherings, the BLM and Army will not hold in-person public meetings for this action. The BLM and Army will host the public meetings online and by telephone. There will be two public online meetings scheduled for Tuesday June 7, 2022, at 3 p.m. and Wednesday June 8, 2022, at 5 p.m. Mountain Time. The BLM and Army will publish the instructions on how to access the online meetings in the *Yuma Sun* (Yuma), *Bajo El Sol* (Yuma), and *Desert Messenger* (Quartzsite) newspapers at a minimum of 15 days prior to the meetings and on the website: <https://ypg-environmental.com/highway-95-land-withdrawal-leis/>.

For a period until April 4, 2024, the lands will be segregated as specified

earlier unless the application is denied or canceled. Licenses, permits, cooperative agreements, or discretionary land-use authorizations of a temporary nature that would not impact the lands may be allowed with the approval of an authorized officer of the BLM during the segregative period.

The application will be processed in accordance with the regulations at 43 CFR part 2310.3 and 43 U.S.C. 155–158.
